

IP: 178.57.66.190 Location: Detroit, MI	Case No. _____AICS 007_____  <b>APPLICATION AND AFFIDAVIT FOR SEARCH WARRANT</b>
--	--

1. George Bronson is an OnStar core operations engineer who works at General Motors in Detroit
2. He was absent from work on the day of the DC incidents
3. Has computer science master's degree and has won awards for hacking car radio systems
4. He is president of a pro-gun organization and believed to be strongly opposed to the gun control bill that would've been voted on this morning
5. He is mentioned on the Tinder of Chrissy Paxton, an automatic systems engineer for the Metro system and known gun rights supporter

Name and Title of Judicial Officer Signature of Judicial Officer

We solemnly swear that all of the information in this warrant can be backed up by hard evidence

We would like to have full, unrestricted access to the device connected to the above-mentioned I.P. address because we feel that it would have evidence of involvement in the D.C. crisis.

Agent Burt Macklin: Born in Awesomedale, California, graduated with honors from Harvard University at the age of 13 with degrees in everything. Previously employed by KFC, then the FBI, and now DHS. Aspiring artist

Agent Chandler Sumpter: Born in Hollywood, California, graduated from Louisiana Tech with a degree in Cyber Engineering. Previously employed by Windows, then the DEA, and now DHS.

### **PROBABLE CAUSE**

As mentioned above, Bronson was a gun nut and renowned hacker, with even his co-workers saying that he would hack just out of spite, it would be no skin off of his back to hack for personal gain. He is a core operations engineer at GM and to hack the systems of the cars in DC would have been extremely easy for him to do, considering at least one car in every accident was a car produced by GM

Bronson would be opposed to H.R. 4269, or the "Assault Weapons Ban of 2016", not only from his own involvement with the Real Men Carry Guns organization, or his being a God-fearing, gun loving, Texas native, but from his girlfriend Chrissy Paxton as well.

Chrissy Paxton is a teacher of a concealed carry class and has been seen on social media speaking negatively about the government trying to pass gun control laws. She also oversees automated transportation software for the Metro automatic train operations branch.

### **TECHNICAL BACKGROUND**

We believe that the I.P. address we are trying to gain access to was the source of the automobile shut-down in Washington D.C. this morning. We strongly believe behind the address is the person who caused the accidents that would shut down all major roads into D.C. is George Bronson, since he was absent from work today, is an expert hacker, an expert in GM computer systems, and is opposed to the bill that was rescheduled for July.
