

Dear President Trump,

This whole year has been a struggle for me and my family. We have worked so hard to keep ourselves alive since the death of my wife. It hit us hard when the MS-13, a criminal gang with ties to Mexico and Central America, brutally murdered my beloved wife. It was shocking when we came home and found her dead with a gunshot to her head. After her death, everything spiraled out of control. To care for my 5 motherless children, I have been working non-stop for money. We barely have enough for a roof over our head and food in our stomachs. My wife helped with everything around the house. Now as a widow, everything I took for granted is now my responsibility. But that is not the only terrible thing to happen. Soon after her death, I was fired from my job. I was the hardest worker; however, illegal immigrants came and took my job. They were willing to work for lesser pay. As a result, I was let go. This was a terrible strain on my family. The loss of my regular source of income can all be traced back to illegal immigrants taking over American jobs. Now my family is jobless, penniless, and motherless.

I voted for you to help with these problems. I was hoping for the illegal immigrants to be gone by now so that my job would be secure. These illegal immigrants have been destroying our economy for too long.

You are a powerful and wealthy man who has led this country to accomplish great things. However, with the majority of my income dwindling away, I was wondering if you could support me and my five children by sending me \$20,000. Your net worth is 3.1 billion dollars, so this small donation will not greatly affect you, but it will help us get back on our feet. Giving us this money will help you seem even more powerful than you already are. Your personal reputation will sky rocket, and you will be seen as the best leader America has ever had. In case acting as any God-fearing family man would is not enough of an incentive for you to part with such an insignificant amount of money know that you too can benefit from this deal. I have connections with The Remembrance Project, “an anti-illegal immigration non-profit organization that gives a voice to people killed by illegal aliens” (“The Remembrance Project”). If you front me a small sum, not only can I use that money to support my family, but I can continue to donate to this wonderful organization. In return they have promised to supply the necessary materials and manpower needed to construct the wall, which is so desperately needed, at a discounted price. As a businessman you understand the need to make short term sacrifices to achieve a long term goal. I see this as one of these short term sacrifices that will benefit you greatly. Thank you so much for taking the time out of your day to help me and my five children out with our struggling lives.

Yours,
Louis Pillsbury

P.S. Make America great again!

An MS-13 gang member who participated in what federal prosecutors called a cold-blooded execution of a Long Island woman has been sentenced to 45 years in prison.

Mrs. Pillsbury was shot execution style and her body was found by her family in their home. It is believed that she was murdered for speaking "rudely" to one of the members of the MS-13 gang. She was only defending what she believed about them.
