The National Security Agency

Internal Memorandum [Do Not Disseminate]
To: Secretary Johnson, DHS

CC:

From: Admiral Rogers, NSA

Date: 24 June 2016

Re: TOR Exit Node Analysis

Secretary Johnson,

Our specialists have performed a full network traffic analysis and have determined the District of Columbia exit node was used in the attack on the Metro network and GM OnStar system. The logs from the exit node indicate the attack was originated from Baghdad, Iraq.

Sincerely,

Michael Rogers, Admiral

Director

National Security Agency
